

GRANULAR FERTILIZERS

FERTUM ORO

ORGANIC FERTILIZER NP 7.8

Mixture of organic fertilizers NP with Iron (Fe)

COMPOSITION

TOTAL AVAILABLE ORGANIC NITROGEN (N): 7%

PHOSPHORUS PENTOXIDE (P₂O₅): 8%

IRON (Fe) water soluble: 1%

AUTHORIZED IN ORGANIC FARMING

FEATURES

Product of the range FERTUM, it contains nuclearized zeolite, with phosphorus extracted from animal bones without solvents.

To improve the enzymatic effect and the root growth, the formula has been completed with hemoglobin (dried blood derivative) which is more efficient over time.

It is an excellent product to restore the telluric habitat for roots.

It can be used during the coverage and mixed with the soil during harrowing.

DOSES AND USE PATTERNS

Open field:

Arboriculture (orchards, vineyards, olive groves, outdoor ornamental plants, etc.): 7-12 quintals per hectare

Horticulture (salade, Solanaceae, medicinal plants, onions, etc.): 6-8 quintals per hectare

Extensive farming and legumes (maize, wheat, sunflowers, etc.): 5-7 quintals per hectare

In plant nursery: it can be used in substrates for potting and planting without the use of any other fertilizers.

PACKING: 25 KG BAGS ON PALLETS OF 1500 KG.
