

## FERTILIZER TREATMENTS IN CASE OF EMERGENCY

# PRO-BIO FER

CE FERTILIZER - with Iron (Fe) chelated with EDTA

### COMPOSITION

IRON (Fe) water soluble: 2% chelated with EDTA

AUTHORIZED IN ORGANIC FARMING

### FEATURES

PRO-BIO FER is a last generation product that brings nutrients based on iron and creates the ideal habit for the root development in harmony with the land.

A good root development allows to reduce the demand of nutrients, of water and improves the production both in quality and in quantity.

PRO-BIO FER protects the roots through an organic matter so it can be considered as a nutraceutical product.
