

LIQUID FERTILIZERS

ERGOPLANT FERTILTERR

NP CE FERTILIZER

With manganese (Mn) and zinc (Zn)

COMPOSITION

TOTAL AVAILABLE AMMONIACAL NITROGEN (N): 4%

PHOSPHORUS PENTOXIDE(P_2O_5) water soluble: 14%

MANGANESE (Mn) water soluble 0,5%

ZINC (Zn) water soluble: 0,5%

FEATURES

ERGOPLANT FERTILTERR is a product based on macro and microelements very useful for horticulture, fruit picking and ornamental plants treated with fertigation.

It is suitable to increase and enhance the root system, to reduce the damage of toxins and salinity and to increase the absorption of minerals. For its composition, based on nutrients essential for cell multiplication, it is recommended in the early stages of growth, or close to harvest.

ERGOPLANT FERTILTERR also increases the fertility of the soil that enhances the absorption of minerals from the roots.

ERGOPLANT FERTILTERR is particularly useful for plant nursery in summer to reduce the environmental stress, the phylloptosis and the vegetative stasis from hot.

DOSES AND USE PATTERNS

Intensive horticulture: 60-100 kg per hectare

Floriculture: 40-60 kg per hectare

Fruit picking: 80-120 kg per hectare

PACKING: 25 KG CANS.
