

GRANULAR FERTILIZERS

FERTUM PLUS

Organo-mineral fertilizer NPK 8.5.10
Iron, Magnesium, Sulfur - low content of chlorine

COMPOSITION

TOTAL AVAILABLE NITROGEN (N): 8%, Organic (N): 2%, Ammoniacal (N): 6%
PHOSPHORUS PENTOXIDE (P_2O_5): 5%
PHOSPHORUS PENTOXIDE (P_2O_5) water soluble: 3%
POTASSIUM OXIDE (K_2O) water soluble: 10% low content of chlorine
ORGANIC CARBON (C) of biological origin: 8%
MAGNESIUM OXIDE (MgO) water soluble: 2%
SULFUR TRIOXIDE (SO_3) water soluble: 20%
IRON (Fe) water soluble: 1%
Mineral fertilizers: ammonium sulphate, urea, simple superphosphate,
potassium sulphate. Organic matter: meat meal, dried blood

Organic fertilizers: for at least 21 days after the application it is forbidden to feed livestock with pasture grasses, or distributed after harvest

FEATURES

FERTUM PLUS is a organo-mineral fertilizer that combines the starting fertilisation, with a slow release of nutrients through the nuclearization of homogeneous products with different biochemical characteristics in the granule. It is particularly suitable to restore the activity of the bacterial microflora in the soil, it reduces the fatigue of the soil after stubble seed and damage caused by toxins and it increases the vegetative biomass. It contains a fraction of zeolite to increase the capacity of exchange of the soil, reducing the chlorosis. Finally, the product contains kieserite to bring magnesium and sulfur.

DOSES AND USE PATTERNS

Horticulture: 5-6 quintals per hectare
Fruit picking: 4-5 quintals per hectare
Floriculture: 4-5 quintals per hectare
Extensive farming: 3-5 quintals per hectare
Plant nursery: 6-7 quintals per hectare

PACKING: 5-25 KG BAGS.
